GRAND DOORS

# VALORA LUMIERE

Aluminium and glass entrance

# VALORA LUMIERE

Aluminium and glass entrance

## A frame for light

Lumiere uses controlled aluminium sightlines and considered glass to connect the entrance with landscape and interior space.

## Glass selection

Clear, tinted, textured, privacy, safety and performance options are reviewed according to project needs.

## Complete composition

Door leaves, sidelights and overhead panels can be aligned as one entrance elevation.

## Important

Final glass build-up depends on dimensions, exposure, privacy, safety and thermal requirements.
